## Dental Scandal Nailed.

EVANSVILLE, WIS JAN. 11th, 1876.

MR. HOXIE,

*Dear Sir:* I desire through the columns of your paper, to correct a false report which certain persons have extensively circulated namely: that I am using an inferior quality of *teeth*. Have always used exclusively Johnson & Lund's or S. S. White's, the two best in the market. The former having the preference in *shape* and *color*, while fully equal in strength; also being a little more expensive than White's. Hundreds of testimonials in favor of the former can be seen at my office, and from one to two hundred dollars worth of teeth of both makes. I challenge any person to produce a set, or even a single tooth, that I have ever used of any other manufacture.

A. H. ROBINSON.

—Dr. Robinson and wife had a few words and parted, Monday noon. She and their little boy, go to St. Johnsbury, Vt., to spend the summer. It will be like “pulling teeth” for the Dr. to keep house alone during the absence of his wife and little boy.

April 7, 1880, Evansville Review p. 3, co. 3, Evansville, Wisconsin

Dr. Robinson has been having the walk relayed in front of his lots and residence. The job is pretty well done; but oh! What a mistake that it was not made five or six feet wide instead of four feet as it is. It is a walk where more travel passes during certain hours of the day than almost any other walk in town, and it is very annoying to be obliged to side track for a bevy of school children in stormy weather or drifting snow. It seems to have been an oversight by our board that an ordinance has not been passed requiring relaid walks to be not less than five feet width, and six feet would be much better, especially upon the street mention, First and Main Street. Bear it in mind gents at your next meeting.
